Arranged to Hold One.  
The Southern Methodist preachers having

station, where an immense tent has been  
erected and every preparation made to re-  
ceive and entertain very large crowds.  
Local clergymen will preach at  
8 and 8 p. m. every day, com-  
mencing Sunday next. P. Lindahl, a  
well-known minister, will lead the singing.  
Efforts are being made to get some of the  
most prominent preachers of the  
month. The meeting promises to be a  
great Methodist assemblage and will con-  
tinue a month.

BRACKEN CRUSHED.

Bad Smash-Up Between Freight and Passenger Train at East St. Louis.

A Wash passenger train crashed into the rear end of a freight train at 7:30 o'clock last night about a mile north of the Relay Depot in East St. Louis. John Collins of Pittsburg, Pa., a brakeman on the Big Four freight on his first trip at the time, was crushed to an unrecognizable mass between the caboose and the freight car next. He was so wedged in by the freight car that he could not be moved until the wrecking train arrived. None of the passengers on the Wash passenger train were injured and the train went on as usual. It was thought at first that the wreck had been caused by a strike, but it appears to have been an accident entirely due to oversight and carelessness of employees.

At the place where the accident occurred the Wash passenger train was being slowed down by a signal. A. C. B. & Q. engineer, who witnessed the accident, says that the Wash engineer did not shut off steam until he was within 100 feet of the freight train. The train men on the Big Four freight took to the woods when the collision occurred. The Wash passenger train was being slowed down by a signal. A. C. ## UTAH'S ADMISSION.

It Will Launch the Transcontinental Railway Enterprise.

A GREAT DAY WHEN THE PRESIDENT SIGNED THE STATEHOOD BILL.

Wealth and Influence of the Mormon Church Behind the Scheme—Worms Made, Estimates Compiled and Resources of the Country Investigated—Santa Fe Co-Operation.

WASHINGTON, D. C., July 12.—The day the President's signature is affixed to the Utah admission bill will see the launching of the greatest railroad enterprise of the year. A transcontinental scheme has been matured and is only held back until Utah can be dealt with as a state. Behind the plan of development is the wealth and influence of the Mormon Church. With the quietest characteristic of the Mormon leaders, the surveys have been made, the estimates compiled, the resources of the country carefully investigated. The work has been done in the most complete manner. The blue prints of the engineers' maps are now here and ready to use for construction purposes.

The road surveyed and to be built extends from Salt Lake City southward and then westward to a Pacific coast connection in the Los Angeles country. If the connection cannot be made with the Pacific coast, the road will be built through the coast. But the probabilities are that a transcontinental line will be made with the Santa Fe from the Needles through to the coast.

The projectors of the new road have already been sounding President Rehnardt of the Santa Fe and have a formal meeting with him immediately after the statehood bill is signed.

By reference to the map a branch of the Union Pacific will be seen reaching southward from Salt Lake City, and another branch will be seen reaching southward from the same point, but approaching short in the midst of the Sierras. The Mormons have done better than the other people of the West in this respect. They have seen the profile. They have seen the Sierras instead of crossing them. They have seen the Sierras and have seen the Sierras. They have seen the Sierras and have seen the Sierras.

In Southern Utah are attractive coal beds which exceed Pennsylvania's by one-half, but which have until now been entirely neglected. The gentle railroad built by the Mormons will be the first to reach the coal fields. It will be the first to reach the coal fields. It will be the first to reach the coal fields.

WASHINGTON, D. C., July 12.—While waiting for the conference report on the tariff bill the House of Representatives is parceling out time to the best advantage possible and this has given the Committee on Foreign Affairs time for the consideration of a number of its measures. One of these is for the distribution of \$25,000 among those who were benefited by the famous Virginia award.

The original award was \$50,000. The government had taken the money and had distributed it to the beneficiaries. The government had taken the money and had distributed it to the beneficiaries.

WASHINGTON, D. C., July 12.—The passage of a bill to establish a home for aged colored people in Washington from part of the unexpended funds due the estates of colored soldiers has encouraged Representative Murray of South Carolina to propose that the balance of the funds be used to establish schools for his race. There is \$50,000 in the Treasury due to colored soldiers of the rebellion on pay and bounties. The money has been claimed and is likely to remain unclaimed.

Judge Green is Familiar With the Ziegenheln Proceedings.

Was Present in Court When the Case Was Up.

A FIRM MAN WHO WILL STAND NO NONSENSE.

Judge Edmunds has not entered his order disbaring Circuit Attorney Zachrits from the case—Remark of Attorney Marshall McDonald Showing Intimacy of Relations of Defense With Circuit Attorney's Office—Examining Ziegenheln's Accounts.

It is not true, as has been published by a local paper, that Judge Edmunds has rescinded his order of last Monday disbaring Circuit Attorney Zachrits from the Ziegenheln-Unger case, which order was rescinded on the day it was made. But while the formal order was rescinded, the transcript of the stenographic report of what took place between the judge and Zachrits in open court is a part of the record of the case. Not only this, but Judge Green, who will preside at the trial by Judge Edmunds' appointment, sat in the courtroom and heard the entire proceedings. Judge Green is said to be a man of legal backbone as well as an impartial and judicial experience, and his discharge of the duty of a presiding judge is said to be characterized by great fairness and easy dignity. Those who know him say that it is in his approach that he will be an easy mark for any building tactics that may be adopted by the defense.

McDONALD'S PECULIAR REMARK.

As showing the intimacy of the relations existing between the Circuit Attorney's office and the defense in the Ziegenheln-Unger case, attention is directed to a remark by Mr. Marshall McDonald, chief attorney for Ziegenheln. When the state's witnesses were being called last Monday morning, time when it seemed probable that the trial would go on, several of those who had been summoned failed to appear. When the Deputy Sheriff called the judge's attention to the fact, Mr. Walker also spoke up confidently concerning the state's witnesses. "Oh, they'll be here, your honor," an exhibition of ingenuitism that caused some of the lawyers to smile aloud. It is understood that some of the friends of Judge Edmunds, who are in the case, intend to try to get on his merits and that he will not submit to the prosecution turned into a farce. Mr. Walker also says that the state is giving assistance to the defense and rendering him valuable assistance.

COMPARING THE COLLECTOR'S ACCOUNTS.

Ten additional clerks were set to work by Deputy Comptroller Fred Gabel at the Court-house, comparing the Judge's Collector's license books with the list of lawful subjects of license taxation already made up by Experts Fisher and O'Connell. The latter are the city directory, a valuable check upon the prepared list, and bring the entire compilation up to date. At present, the only work upon which the clerical force of the Mayor's Investigating Committee is engaged, and which will be completed, can be judged from its actions, is doing little except to wait for the grand jury.

Judge Edmunds Answers Some Talk About Its Selection.

## SHUT DOWN THE MARKETS.

Two Thousand Employees of Liggett & Meyers Out of Work.

The Company Has Been Unable to Move Its Finished Product.

SEVERAL THOUSAND MEN OUT BY SUSPENSION OF OTHER FACTORIES.

The Shut-Down of the Stamping Works Left 1,000 or More Men Idle—Consolidated Wire Co. May Lose \$500,000—Numbers Out at Other Places.

The railway tie-up has caused the suspension of many industries, throwing thousands out of employment in St. Louis. This is due chiefly to the lack of coal and shipping facilities for the product. Some of the companies whose operations are suspended are taking advantage of the opportunity to do their annual reaping.

The Liggett-Meyers Tobacco Co. shutdown was complete by to-morrow evening. They employ 2,000 white and 1,500 colored operatives. They began to close their factory Monday, July 2. Owing to their product being in different stages of manufacture, it takes ten days to close the shops. The work will be completed to-morrow.

The exodus of their operatives from the factory, Thirteenth and Locust streets, started the rumor this morning that the general strike had been inaugurated.

F. J. Heiser explained to a Post-Dispatch reporter that the employees had been called in to get tickets to the complimentary annual excursion which will take place at 3 o'clock Saturday, July 14. The steamers Grand Republic and City of Vicksburg have been chartered to run to Plaza Bluffs. All arrangements have been made for the usual grand tour.

Mr. Heiser explained that the shut-down was rendered necessary by the inability of the company to move its finished product. Its value is \$400,000 a day, he said, and it was accumulating here beyond the insurance obtainable by the company. Shipping has begun again and the company hopes to resume Monday.

The rolling mills of the St. Louis Stamping Co. are idle for lack of fuel. About 1,000 men are idle. The stamping works have five or six days' fuel.

The Carondelet Foundry Co. have a small supply of coal but still manage to operate the works.

About 200 of the Laclede Fire Brick Co.'s 300 operatives are out of work.

The Western Terra Cotta Co. have about twenty-five of their 100 men at work. They have fuel and supplies in store for about two weeks.

The Mitchell Fire Clay Co. have laid off twenty men.

The Goodwin Manufacturing Co. works have coal for a week's run.

The Waters-Pierce Oil Co. works resumed again Wednesday after a short suspension due to lack of shipping facilities.

The Western Wire Co. have laid off their force of 500 men, not being able to get coal or ship goods.

Almost all the brick and clay companies have laid off or partially laid off work.

The same thing is true of many of the milling companies.

The Eagle Flour Mills at Tower and St. Louis will soon be able to resume. Coal is their only trouble.

The Victoria Flour Mill, employing fifty or seventy men, has laid off about twenty.

The St. Louis Coalage Co. employ a full crew of men, but are not running on time.

In spite of the dangers accompanying the trip on a Pullman car over a rather desolate stretch of country, Dan Black, a young man of 21, chose to make the trip alone.
